Who is responsible for the implementation?	<i>The Triangle village committee plays the vital role in implementation of the all activities. VDC Secretary, VDC hired social mobilizer and Triangle/ASK responsible person Hari also support to implement and monitor.</i>				

<p>How were the beneficiaries selected?</p>	<p>After finished the settlement level planning the village committee's members again organize the meeting to identify the potential source of funding and distribution of the Trinaglen money. To distribute the money for the income generation activities; they have developed criteria themselves. Generally the villagers made some indicators for the distribution of money for income generation;</p> <ul style="list-style-type: none"> <li>the family who has no or very little land, poor condition of house, Lack of food security for whole year, Labors for livelihood for others, Landless people, Unemployed family, No guarantee for settlement, etc.</li> </ul>
<p>Were there any disagreements – discussions about the priorities? What was the role of the Triangle facilitator?</p>	<p>Before the training of settlement level planning, some of the villagers found they received very little money and also experienced conflict of Interest, so it was difficult to fulfill the expectation of the villagers. Now the facilitators from their own village, neighbour village facilitators, and Hari explain about the SLP method and of resources available, internally and externally, and the supporting system from Triangle. The villagers agreed to the new method, and find it more participatory and just.</p> <p>Specially ASK cooperates and fully focus on the settlement level planning process with the engagement of communities, gave information of the Triangle and support to planning, implementation, monitoring, coordination and reporting.</p>
<p>Did the villagers have any comments/questions for the ASK or Triangle?</p>	<p><i>In previous years, lack of awareness caused difficulty in managing the money the right way. Following the villager's participation in the settlement level planning, they realized and fully agreed on the method; it was realistic and participatory. But we have to provide more technical knowledge for the settlement level planning.</i></p>

NB: Please answer the same questions for every new village cooperation started in the reporting period.
