What did the villagers decide to spend the funds on?	The villagers decide to spend Nrs 40,000.00 for poultry business promotion and Nrs 50,000.00 for pig raising from Triangle supported money.																																												
Has the committee received the funds yet?	Yes in October 2014, it was transferred.																																												
Activity plan: When are the activities going to be	All planned activities were completed, which are described below: <ul style="list-style-type: none"> All Nrs 86000 rupees invested for micro loan to women and poor's 																																												

implemented?	income generation.
Who is responsible for the implementation?	The village committee plays the vital role to implement all activities and after that VDC Secretary, VDC social Mobilizer and Triangle responsible person Hari also support to implement and monitor.
How were the beneficiaries selected?	After completed the settlement level planning the village committees' members again organized the meeting and make the criteria to distribution of money. Generally the villager followed some indicators for the distribution of money which is indicated by LGCDP(Local Government Community Development Programme): <ul style="list-style-type: none"> • The family with no or very little land. • Poor house condition. • Lack of food for whole year. • Labours for others for livelihood. • Unemployed family. • No guarantee for settlement, etc.
Were there any disagreements – discussions about the priorities? What was the role of the Triangle facilitator?	Some of the villagers found that the Triangle donation could not fulfil all aspects of the wishes the villages had. However, the facilitator and Hari explained about the money and the supporting system from Triangle (getting to know how to influence VDC and DDC to get projects approved, and how to ask for better services). Specially ASK cooperate and fully focus on the settlement level planning process with the engagement of communities, give the information of the Triangle, and about the resources of the VDC block grant and the District Development Office possibilities of supporting the village. The villages have seen that the Triangle support to ASK and the villages, has given the villagers more tools for managing their own resources and influencing those of the local bodies (VDC and DDC).
Did the villagers have any comments/questions for the Triangle?	With lack of awareness, it was difficult to manage the money the right way the previous year, but after villagers participated in settlement level planning, they realized and fully agreed to the method and found it was realistic and participatory. There was a request that ASK should provide more technical knowledge for the settlement level planning and development possibilities in the village. Now the money for micro-loan is increasing so it has to provide the account management knowledge also.
