Most significant change/postcard

*Kancchimaya Tamang-60, NP-51 Kavre joined the Triangle Support Project. Her life was hard because of the low income of family so it was very difficult in obtaining food because of low income. She has frequently needs to knock on the door of the local moneylender. The traditional agriculture system has not been able to provide the enough food for this family, providing only 3 to 6 months of food sufficiency from their own production.*

*After joining the Triangle project, she obtained the NRs 10,000 through a village committee microloan without any interest, which she used to purchase goat raising. And the goat gave birth two kids now they are growing up. She said that she is going to sale them then she will get 30000. She also has some vegetables to sell. Her income is increasing steadily and she is not suffering from any type of financial crisis to handle the household economy and now she would like to thank Triangle/ASK and the donors who supported her and the village Gairigaun.*

## ANNUAL PROGRESS REPORT

### FISCAL YEAR 2074-075/JULY 2017 TO JUNE 2018

# Progress Detail

<b>1. Name of village:</b>				
NP-51Gairigaun

Dalit	Janajati	Other	Total																								
Maintenance of drinking water source	50	0	50																								
<b>6. How were beneficiaries selected?</b>																											
After finishing the settlement level planning the village committee members again organized the meeting and made the criteria for distribution of money. Generally the villagers followed priorities for the distribution of money used by LGCDP (Local Government Community Development Programme): <ul style="list-style-type: none"> <li>• Families with no or very little land</li> </ul>																											

- Poor housing conditions
- Lack of food for the whole year
- Persons with labor-based livelihoods (for others)
- Unemployed families
- No guarantee for settlement, etc
- Most earthquake affected persons

**7. Ongoing activities update, results of the activities**

All planned activities were completed, The money DKK 5000 (NRs 75000) from Triangle annual member donation in Denmark is used for;

- Maintenance of drinking water source Nrs.30,000.
- For microloan Nrs.45,000 is distributed.

**8. Doing Democracy training**  
**From the relevant rubric: What did you learn from the training? Any improvements in the village because of the applied method? Any conflicts as a result of the activity? (Learning)**

**Public Social Audit:** The people and the facilitators have learned that this is a necessary component to make the government and service provider accountable. We have trained the villagers, but the actual VDC Public Social Audit will take place later this year in the new context of restructure of federal state Nepal )

**Community Score Cards:** It is one of the most important components to improve the government service to the peoples and make better and accountable of the service provider. In the process, health posts will be targeted later this year.

**Right to Information:** Facilitators have been trained and started to mobilization for public awareness.

**Other methods (SLP):** This is a very good and participatory method to know the planning system and the selection of most needed projects.

**9. Micro finance update**

**9.1 Money collected in the fund for microloan**

The fund for providing microloans has increased over the last five years. Apart from the 45000 NRS from 2017, a sum of 155000 paid back from previous years was added to make 200000 NRS for distribution in 2017.

20 families who got the micro loan for goat rearing, small poultry business promotion, and vegetables farming in 2016/017 have received a lot of benefits and extra money (Minimum Nrs 8000.00 to maximum Nrs15,000.00) which was spent on dresses and books for their children, food and some clothes for the family. They feel that their livelihood is improving, and would therefore like to remember those who supported the village. The women, children and all the villagers' health and living

situation have improved because of income generation activities and awareness. Now they are happy and give many many thanks to the supporters of their village with new concepts. People from the village are continuing their regular savings and credit in a sustainable way and almost all villagers are involved in the micro-credit group also. A lot of success has been achieved. For this report one of the most significant changes is the story that has been included in front page of this report.

## 9.2 Use of microloan and status

- 10 families got a microloan of Nrs 100000 (10 persons\*Nrs 10000.) and have established vegetables garden.
- 10 families got a microloan of Nrs 100000 (10 persons\*Nrs 10000.00) and have started raising of goat.
