#### 6. How were beneficiaries selected?

After finishing the settlement level planning the village committee members again organized the meeting and made the criteria for distribution of money. Generally the villagers followed priorities for the distribution of money used by LGCDP (Local Government Community Development Programme):

- Families with no or very little land
- Poor housing conditions
- Lack of food for the whole year
- Persons with labor-based livelihoods (for others)
- Unemployed families
- No guarantee for settlement, etc
- Most earthquake affected persons

#### 7. Ongoing activities update, results of the activities from Danish Donor funding in 2019

All planned activities were completed. Out of the grant DKK 5000 (equivalent to Nrs - NRS 82000), NRS 22000 was spent for small irrigation project and NRS 60000 was invested for micro loan to women, poor and needy people for income generation and benefited 6 persons.

Out of 6 persons who took microloan for 2019;

- 6 families got microloan amounting to NRS 60000 (6 persons\*NRS 10000) and have started raising goats.

## 8. Doing Democracy training

**From the relevant rubric: What did you learn from the training? Any improvements in the village because of the applied method? Any conflicts as a result of the activity? (Learning)**

**Public Social Audit:** The people and the facilitators have learned that this is a necessary component to make the government and service provider accountable. Facilitators were developed.

**Community Score Cards:** It is one of the most important components to improve the government service to the peoples and make the service provider better and accountable.

**Right to Information:** The knowledge about RTI is now increased. (anti-corruption measure)

**Other methods (SLP):** This is a very good and participatory method to know the planning system and the selection of most needed projects.

## 9. Micro finance update

### 9.1 Money collected in the fund for microloan generated from Danish donor funding and outcomes

The fund for providing microloans has increased slowly slowly over the last 8 years. The 16 families, who got micro loans for raising of goats and commercial and off season/seasonable vegetables farming in 2018/019 have successfully repaid loans NRS 185000 for amounting to 245000 NRS. People are happy with such kind of support to the village to address the basic and real needs of the citizens. The 16 families mentioned above have received extra money (minimum NRS 10000 to maximum NRS 35000) which was spent on dresses and books for their children, food and some clothes for the family. They feel that their livelihood is improving, and would therefore like to remember/thanks to donor **Peter Marinus Jensen** who supported the village.

### 9.2 Use of microloan and status

- 26 families got a microloan of NRS 185000 (10 persons\*NRS 5000, 10 persons\*NRS 75000 and 6 persons\*NRS 10000) and have established vegetables garden.
- 6 families got a microloan of NRS 60000 (6 persons\*NRS 10000) and have started raising of goat.

# Message from Village.....

*The families, we got the micro loan for goat raising, and vegetables farming from several years have received a lot of benefits and extra money (Minimum NRS 10000 to maximum NRS 35000 per year) which was spent to purchase dresses and books for their children, food and some clothes for the family and saving in the cooperatives. We are now feeling that our livelihood is improving, and would therefore like to remember **Peter Marinus Jensen** who supported us in this village and ASK Triangle to bring her here in the village.*

*Our's (women, children and all the villagers) health and living standred is improving because of income generation activities, awareness training and small infrastructures development support of ASK/Triangle by coordinating different donors/individual supporter from many years. We are getting lot of success here in the village from your support. Hope it will be really memorable for you and us!!!*
